Advanced Modern Standard Arabic

ARAB 3003-3503 (3 Credits)

Jordan: Arabic Language (Beginning, Intermediate, and Advanced)

This syllabus is representative of a typical semester. Because courses develop and change over time to take advantage of unique learning opportunities, actual course content varies from semester to semester.

Description

This nine-week online course presents a survey of major concepts in Arabic language and culture and aims to develop students' knowledge of Modern Standard Arabic: both colloquial spoken language and the written script. It aims to have students critically examine the language they use on a daily basis. To become familiar with Arabic, students will learn grammatical rules, vocabulary, structure, and methods of forming sentences. These linguistic rules will be tied to local cultural norms to give students a broader understanding of everyday life in Jordan and Jordanian society as a whole. Thus, not only does the course aim to have students use Arabic to express themselves in daily life, but also to develop students' understanding of Arabic culture through different applications of the language.

Language Levels and Placement

Students are placed into appropriate language course levels based on oral proficiency interviews and written exams (placement tests) conducted either during the week prior to the start of the program or during orientation online.
