

Intensive Language Study: Intermediate Wolof (Online Course)

WOLO-2003-2503 (3 credits)

Senegal: Wolof Language

This syllabus is representative of a typical semester. Because courses develop and change over time to take advantage of unique learning opportunities, actual course content varies from semester to semester.

Course Description

The role of the intermediate Wolof language training is to build on students' introductory Wolof skills and to continue the engagement with Senegalese cultures and language communities. The language training is organized by a language coordinator and carried out by a teacher experienced in teaching Wolof to non-native speakers. Language study consists of 45 hours of formal instruction including experiential sessions on shopping, Senegalese cooking, and music, etc. Language study is reinforced through various online learning tools and through interactive assignments. Language study will prepare students to do an optional three-week J Term course in Senegal. The Wolof courses given in this training will be in the form of skills to be acquired. Those skills will be covered using a Skills-Based Education approach. Each skill will be taught in considering the different learning styles of the students. To fit each individual learner's style, each skill is divided into four steps:

Motivation: warming-up, revision, introduction for those who feel things and those who observe.

Exploitation / information: for those who think and those who observe.

Practice: for those who think and those who act.

Application: for those who feel things and those who act.

After assimilating the content of these skills, the learners will have acquired the intermediate structures in Wolof for engagement with Senegalese communities around the world. Each of the proposed lessons pursues goals that will be achieved through the following tools: **vocabulary** words, **grammar** and **functional structures**.

Learning Outcomes

By the end of the course, students will be able to:

- Develop an intermediate understanding of Wolof for day-to-day usage in typical contexts (culturally appropriate greetings, introductions, market interactions, relating everyday experiences, asking directions, etc.)
- Demonstrate a greater understanding of Wolof in the Senegalese culture using the local language; and
- Execute intermediate language skills in order to function effectively and independently in Senegalese environments.

Methodology

Competency-Based Teaching focuses on the needs of the learners. However, it does not dictate any teaching method because there is no better way to learn a language and because learners have different learning styles. No exclusive teaching method will be preferred, but rather a variety of methods based on the latest professional standards. The course will take an eclectic approach that will use methods and techniques based on the natural approach, the communicative approach and elements of audio-oral methodology. Lessons will include a variety of activities to address different learning styles. This variety will be proposed in a four-step sequence that reflects the current conception of adult learning and language acquisition. The course will begin with non-stressing review and warm-up activities that will focus learners on materials already studied, in a personal and fun way. Second, new material will be introduced by linking it to the things already learned and the needs of students. In the third and most important stage, students will be brought to a more advanced practice of the new material. Finally, students will be encouraged to create in the new language by doing simulations during and out of class. As tools and activities, we will have, for different styles:

Visual: flash cards, pictures, realia, worksheets, demonstration, observation, use of online technology.

Sample Course Readings:

The language instructors will provide students with reading materials and assignments throughout the Wolof course. In addition, students should plan to obtain a Wolof/English and/or Wolof/French dictionary for their personal use in Senegal.

You are responsible for all the required readings and should be prepared to bring them to bear on discussions in class. The readings will help you place the classes in their context, to challenge and engage the instructor, to generate questions for class discussions and to deepen your knowledge of aspects discussed in class. They are not necessarily tailor-made for each class.

Field Exercises and Language Role Play

Through online assignments and interactive scenarios, students enrich their classroom learning experience and their ability to function in real life language situations, assimilate everyday life issues, and immerse themselves in the host culture. Online field assignments may be done both individually and in groups. Field exercises may include virtual visits to the following places:

- Markets: doing a virtual tour of Senegalese markets by looking up information

- online
- Senegalese dishes: research Senegalese dishes and contact local Senegalese Restaurants where you live
- Virtual visits of museums, cultural sites and monuments: to learn about historical sites and local areas of importance

PLEASE NOTE: COURSE CONTENTS, LECTURERS AND READINGS MAY BE MODIFIED AS NEEDED. SHOULD ANY CHANGE OF CLASS TOPICS OR LECTURERS BE NECESSARY, STUDENTS WILL BE PROMPTLY NOTIFIED.

Evaluation and Grading Criteria

Grades are assigned by the Academic Director, in consultation with the language instructors, and are based on evaluation of performance on written and oral presentations during the semester and efforts to communicate in Wolof outside the classroom during the break time. The language grade also reflects the instructor's evaluation of student written homework, quiz given during the class, participation and attendance (including tardiness, absences, and active engagement in class).

EVALUATION :

Attendance and participation:	10%
Oral presentation:	20%
Written homework:	20%

<u>Final Exam:</u>	<u>50%</u>
Reading and questions:	10%
Written test:	20%
Oral exam:	20%

Attendance & Participation:

Class attendance is mandatory, and absences are penalized by reducing the language grade, except in cases of documented illness, whereby the student is expected to provide a medical certificate. Two unjustified late online arrivals will be counted as one absence. Participation requires active engagement – you are expected to express yourself, ask questions, discuss readings, role play, interact, and use Wolof in and outside class (i.e., on excursions, interacting with Global Security and Religious pluralism faculty, in homestays). Assigned readings must be read in advance of the lesson to: 1. familiarize you with the specific vocabulary and content of the class, so you are able to follow it more easily and 2. provide the necessary background to participate in class discussions and expand vocabulary

Oral presentations:

Two oral presentations are scheduled during the program. The choice of subject is decided by each student. Each presentation is limited to 20 minutes maximum. Students may choose to present individually or in small groups of no more than three participants. Oral presentations enable students to perform and engage in creative activities.

Written homework:

Language teachers will provide specific information as to the written homework assignments. An assignment on the family tree will be included in this written homework.

Final exam:

The written exam will review previously covered issues related to grammar, vocabulary, expressions, conversations, reading and writing. The oral exam will be around all the skills covered.

Grading Scale:

The grading scale for all classes is as follows:

94-100%	A
90-93%	A-
87-89%	B+
84-86%	B
80-83%	B-
77-79%	C+
74-76%	C
70-73%	C-
67-69%	D+
64-66%	D
Below 64	F

Grading Criteria

An “A” grade for an assignment entails superior (not just “very good”) performance in terms of structure and organization of assignments, analysis, logical argumentation and consistency, and the provision of factual, numerical and/or historical evidence. In terms of Class Participation, an “A” grade refers to full attendance, punctuality, attentive listening and active engagement in all Academic Seminar lectures, discussions, field trips and other activities. It also means polite and respectful behavior. The level, frequency, and quality of the students’ participation will be monitored and considered.

Class Participation

Participation in class refers to attendance, punctuality, attentive listening and active engagement in all Academic Seminar lectures, discussions, field trips and other activities. It also means polite and respectful behavior.
