Grading Scales and Criteria
Grades are given both fairly and rigorously and in accordance with the system below. They will reflect a combination of absolute quality of performance, progress made, the ability to take into account and assimilate the Academic Director’s and the teachers’ advice in assessing the work done. An “A” letter grade reflects exceptional work, perfect combination of academic competences and personal research and engagement. In terms of class participation, an “A” grade refers to full attendance, punctuality, attentive listening and active engagement in all language class activities. A “B” letter grade reflects serious and methodical work as well as a substantial effort at achieving excellence in language. A “C” letter grade shows that work meets the requirements but needs more in-depth reflection and personal involvement. A “D” letter grade is insufficient and clearly reflects lack of work or serious deficiencies.

The grading scale for all classes is as follows:

<table>
