Course Description

All SIT programs have an important language component as part of the overall cultural immersion experience. This advanced level language course is designed to further expand and strengthen students' proficiency and communication in Indonesian, with an emphasis on vocabulary and dialogue most relevant to the program's content and design. This course utilizes an integrated skills approach in teaching, though primary emphasis is placed on developing listening and speaking skills. However, reading and writing skills are highlighted to reinforce students' oral comprehension and conversation. Cultural context is built into the course and introduced through experiential activities accompanying the textbook.

The Indonesian language is an Austronesian language and displays the typical features of vowel harmony and agglutination that means single or multiple prefixes or suffixes are added to modify meaning and achieve inflection. The enrichment of Indonesian language vocabulary is mostly adopted from the rich ethnic languages in Indonesia, although some of the Indonesian vocabulary was originally from other languages such as Sanskrit, Arabic and Dutch or English.

Language Levels and Placement

Participants are placed into appropriate language course levels based on oral proficiency interviews and written exams (placement tests) conducted during orientation in Bali.

Additional Information

Homestay

As a complement to the language classes, homestays provide students with the opportunity to learn from different sources, including community members, and to use their language skills continually in a multilingual learning environment. Our goal is to help students develop the necessary communication tools that they can use with their host families, neighbors and Indonesians on the street or in other public spaces.

Field Exercises

Through regular field assignments, students enrich their classroom learning experience and their ability to function in real life language situations, assimilate everyday life issues and immerse in the host culture. Field assignments are done both individually and in groups.

Office Hours by appointment

Office hours are by appointment and the teachers may schedule additional office hours for students who need further support.

Grading Criteria

An “A” grade for an assignment entails superior (not just “very good”) performance in terms of structure and organization of assignments, analysis, logical argumentation and consistency, and the provision of factual, numerical and/or historical evidence. In terms of class participation, an “A” grade refers to full attendance, punctuality, attentive listening and active engagement in all academic seminar lectures, discussions, field trips and other activities. It also means polite and respectful behavior. The level, frequency, and quality of student participation will be monitored and taken into account.

Expectations and Policies

Show up prepared - Be on time, have the readings completed and points in mind for discussion or clarification. Complying with these elements raises the level of class discussion for everyone.

Have assignments completed on schedule, printed, and done according to the specified requirements - This will help ensure that the assignments are returned in a timely manner.

Examinations - Students are given examinations covering the major content of these lectures, field trips and readings.

Attendance - All students are required to attend all lectures and to participate in all bi-weekly discussion and analysis sessions. All excursions are mandatory and students must discuss absences with the Academic Director before the planned departure.

Participation - Participation is not the same as attendance. All students are expected to participate fully in all aspects of the course. This means asking pertinent questions to the course’s guest lecturers, engaging in discussion and analysis during lectures, group discussions and on excursions. Students are expected to complete the required reading in a timely fashion, and to demonstrate their understanding of texts through reflection, writing, and discussion.
