## Pell Match Scholarship Program

*Increasing access to international education  
for more undergraduates*

The Federal Pell Grant Program provides need-based grants to low-income undergraduate students to promote access to postsecondary education. SIT will automatically match a student's Pell award used for a semester program with SIT, thereby placing high-quality, field-based study abroad programs within greater financial reach of a wider range of undergraduate students. More than 30 SIT programs across the globe are eligible for the Pell match scholarship.
