

Advanced Modern Standard Arabic

ARAB 3003-3503 (3 Credits)

Jordan: Climate Change and Sustainability Internship

This syllabus is representative of a typical semester. Because courses develop and change over time to take advantage of unique learning opportunities, actual course content varies from semester to semester.

Description

This course presents a survey of major concepts in Arabic language and culture and aims to develop students' knowledge of Modern Standard Arabic: both colloquial spoken language and the written script. It aims to have students critically examine both the language they use on a daily basis and the way this language interacts with local culture. To become familiar with Arabic, students will learn grammatical rules, vocabulary, structure, and methods of forming sentences. These linguistic rules will be tied to local cultural norms to give students a broader understanding of their everyday lives in Jordan and Jordanian society as a whole. Thus, not only does the course aim to have students use Arabic to express themselves in daily life, but also to develop students' understanding of Arabic culture through different applications of the language.

Jordanian Arabic

Immediately after arriving in Amman and during the first week of orientation, students participate in a 15-hour introduction to Jordanian Colloquial Arabic that ranges from basic vocabulary and sentence structure to easy dialogues and interactive exercises. The objective of these sessions is to provide students with an elementary background and early familiarity with Jordanian Colloquial Arabic in preparation for the homestay experience.

Language Levels and Placement

Students are placed into appropriate language course levels based on oral proficiency interviews and written exams (placement tests) conducted during orientation in Jordan.

Learning Outcomes

By the end of the course, students should be able to:

- Understand and process information given over the telephone;
- Communicate with a group of native speakers on a professional subject;
- Listen to, take accurate notes on, and summarize a speech or an informal discussion on their special interests;

An "A" grade for an assignment entails superior (not just "very good") performance in terms of not only technical correctness, but also in structure and organization of assignments, analysis, logic of writing, and consistency.

In terms of Class Participation, an "A" grade refers to full attendance, punctuality, attentive listening, and active engagement in all lectures, discussions, field trips, and other activities. It also means polite and respectful behavior. The level, frequency, and quality of the students' participation will be monitored and taken into account.

Program Expectations

- Show up prepared. Be on time, have your readings completed and points in mind for discussion or clarification. Complying with these elements raises the level of class discussion for everyone.
- Have assignments completed on schedule, printed, and done accordingly to the specified requirements. This will help ensure that your assignments are returned in a timely manner.
- Ask questions in class. Engage the lecturer. These are often very busy professionals who are doing us an honor by coming to speak.
- Comply with academic integrity policies (no plagiarism or cheating, nothing unethical).
- Respect differences of opinion (classmates', lecturers, local constituents engaged with on the visits). You are not expected to agree with everything you hear, but you are expected to listen across difference and consider other perspectives with respect.
- Storing Your Work: Keep several copies of your work as back up and keep one copy accessible to you through an online forum, such as an attachment in your email, the course learning management system, or cloud-based storage. This way your work will always be available to despite technical issues. Lost files, deleted drives, or computer crashes are not excuses for late, missing work.
- Personal Technology Use: Cell phones and other personal electronics can be used for taking notes and other class activities. Off-task usage is not acceptable. You may be marked as absent for habitually using them for something other than classroom activities.
- Course Communication: Course documents and assignments will be posted on the learning management system, Canvas. Although the course calendar provides a broad overview and the general sequence of work and assignments for the course, what we accomplish in class will vary, and revisions to the calendar will be posted at the course site. You will need to check the course site regularly. You are responsible for

letting me know about any network-related problems that prevent you from accessing or submitting assignments.

- **Content Considerations:** Some texts and activities you will encounter in this course delve into sensitive topics that may be emotionally and intellectually challenging. Our classroom is a space where we can engage with challenging ideas, question assumptions, and navigate difficult topics with respect and maturity. As possible, I will flag content and activities that are especially graphic or intense, so we are prepared to address them soberly and sensitively. If you are struggling to keep up with the work or participate in the course because of the nature of the content and activities, you should speak with me and/or seek help from counseling services.
- **Classroom recording policy:** To ensure the free and open discussion of ideas, students may not record classroom lectures, discussion and/or activities without the advance written permission of the instructor, and any such recording properly approved in advance can be used solely for the student's own private use.
