Beginning Nepali
NEPA 1003-1503 (3 Credits)
Nepal: Borders, Identity, and Community Resilience

This syllabus is representative of a typical term. Because courses develop and change over time to take advantage of unique learning opportunities, actual course content varies from term to term.

Course Description
From shared beginnings in Peace Corps Volunteer language training to now, there has always been an emphasis on language as a key to cultural learning and to greater international understanding. Thusly, our language courses are suited to in country socio-cultural dynamics, where attention is given to communicative context as well as content and where we attribute value to traditional languages and/or minority languages as well as “official” languages.

The study of Nepali is the first prerequisite for successful entry into the native communities of Nepal. Language training in Nepali begins immediately after arrival in the country, and throughout the semester, students are encouraged to apply their language skills in all facets of the program, especially during home stay, the village excursion, and the Independent Study Project or internship.

The purpose of language training is communication. Students need to be able to communicate in Nepali to work/stay effectively in Nepal. We emphasize language acquisition (Natural Approach) for application in real life situations. The successful completion of the language training will give the learner a good foundation for language usage in day-to-day life. For each component, topics are identified; tasks performed under each topic are determined and designed by the teachers according to the students’ learning styles and capacities. Each lesson presents the situation, e.g. eating with host family, and the topic, e.g. food and socializing. Students learn to use a certain “dialogue” appropriate to the topic. Dialogues are used to assist in expressing needs, wants, questions, responding to questions, giving and asking opinions, and interviewing, etc.

Language Levels and Placement
Students are placed into appropriate language course levels based on oral proficiency interviews conducted during orientation in Nepal.

Course Requirement

Methodology
In terms of language teaching approaches, methods and techniques, we utilize multiple approaches based in experiential learning. During the semester, students attend 2.5 hours of language class five days a week. Since our main focus is language acquisition, we do not allow our learners to speak other languages in the classroom. However we sometimes deal with grammar and other issues related to Nepali language learning in English.

Class Schedule
Students will have at least 45 class hours. During our Kathmandu stay, the class schedule is Monday, Wednesday, Friday 8:00am-10:45am. Language class hours and timing may be different during our excursions. Classes are shuffled and reshuffled according to the learning pace and student number so that students will be familiar with each teacher’s teaching styles and techniques. Extra individual classes will be provided if students want to work more on language. Students will not be staying in a formal class every day, different language activities (e.g. games, cooking class, assignments, debates) are organized related to language learning.

Assignments
You will have language homework most days. Assignments are given daily after language class ends and are due the next day during class. Assignments are usually reviewed and returned to students before the same day.

Evaluation and Grading Criteria

Assessment
Teachers plan lessons and evaluate student performance at daily meetings. Students are then regrouped according to learning pace and individual strengths and weaknesses. At the end of the semester, teachers collectively compose a final evaluation for each student, taking into account classroom performance and the use and development of language skills in the host community.
Through periodic and ongoing experiential evaluation students are graded in each of the following areas according to the criteria set out in the syllabi: grammar, vocabulary, oral and reading comprehension, fluency, pronunciation, motivation, attendance, progress, Devanagari and language usage outside of classroom. In addition, there are two written tests during the semester (e.g. short question/answer, fill in the blanks, correcting word order, etc.) and final written and oral exams before ISP and internship starts.

The Academic Director, based on the language teachers’ final evaluation determines the final semester language grade. Although not part of grade, students will be given an ACTFL oral proficiency interview before the ISP and internship period by a certified tester at the conclusion of language study to gauge students’ language acquisition.

Methods of Evaluation
Students will be evaluated on the following criteria in their learning and work in target language:

Grammar
Grammar is the integral part of the language; it governs the composition of word order, conjugation, tenses etc. It is evaluated under assignments, class activities and presentation, exams.

Vocabulary
At least 20-30 new words are taught in class. Students are highly encouraged to acquire extensive vocabulary from the homestay family, books and on their own. Vocabulary is evaluated under assignments, class activities and presentations, and exams.

Intelligibility/Pronunciation/Fluency
Students are expected to be intelligible and clear in their writing, reading, description, discussion in terms of grammar, pronunciation, smoothness of conversation flow. This criteria is graded under class activities and presentations, assignments, and exams.

Attendance/Participation
Students are expected to attend each and every language class and the activities scheduled by teachers.

If students get sick or have important appointments they should inform to the teacher and director ahead of the class. ‘Just being in class’ cannot be considered ‘good participation’. Being motivated in learning, encouraging and being helpful to their classmate, creating Nepali speaking environment inside and outside class, showing respect to language, host-culture without being defensive or distracting are also important. It is graded under attendance/participation, class activities and presentations, and assignments.

Devanagari
Students' fluency and accuracy are graded in Devanagari reading and writing. It is graded under assignments and exams.
