

## Intermediate French I

FREN-2003 (3 credits)

### Switzerland: Choose Your Track—Wildlife, Food Systems, Cities OR French Culture

*This syllabus is representative of a typical semester. Because courses develop and change over time to take advantage of unique learning opportunities, actual course content varies from semester to semester.*

#### Description

This course seeks to provide students with a broader access to the host culture and enable participation in daily social life. Students will develop their conversation and comprehension skills, so that they will be able to easily function in daily social situations and maintain face-to-face conversations.

Courses focus on communicative competence and linguistic functional ability. The lessons cover grammar, vocabulary, and pronunciation as well as skills in speaking, listening, reading and writing. Instructors adapt the content of the courses to the students' needs in order to achieve a much greater fluency in a short period of time.

Instructors use a wide variety of materials and exercises, including authentic recorded material, role-plays, field visits, newspapers and magazines, in addition to a French grammar book proposed by the language school where classes take place.

Through a home stay residence in the French speaking Canton of Vaud, each student becomes a member of a family and shares in its daily life. This opportunity facilitates cultural immersion and helps develop language skills further.

#### Learning Outcomes

The *Intermediate French I* course comprises 45 hours of instruction (3 credits). Upon completion of the course, students will be able to:

- Implement vocabulary and pronunciation skills by verbally communicating in a simple way in situations that students may encounter while living in a French-speaking country
- Demonstrate the ability to enter into conversation on topics that are familiar, of personal interest or pertinent to everyday life, and to briefly give reasons and explanations for opinions and plans
- Identify the main points of clear standard speech on familiar matters
- Comprehend texts that consist mainly of everyday language

- Write simple connected texts on topics which are familiar or of personal interest

This course is built on the knowledge students already have and is intended to improve language skills further.

### **Language of Instruction**

This course is conducted entirely in French.

### **Instructional Methods**

SIT's teaching and learning philosophy is grounded in the experiential learning theory developed by Kolb (1984; 2015) and informed by various scholars, such as Dewey, Piaget, Lewin, among others. Experiential learning theory recognizes that learning is an active process that is not confined to the formal curriculum; "knowledge is created through the transformation of experience" (Kolb, 2015, p. 49). Learning involves both content and process. Learning is holistic and happens through various life experiences upon which students draw to generate new ways of knowing and being. Learning involves a community and is a lifelong endeavor. Learning is transformational. The suggested four step-cycle of a concrete experience, reflective observation, abstract conceptualization, and active experimentation embedded in the experiential learning model is not linear and might not always happen in that specific order, as any learning is highly context dependent. These stages of taking part in a shared experience; reflecting on that experience by describing and interpreting it; challenging their own assumptions and beliefs to generate new knowledge; and ultimately applying new knowledge, awareness, skills, and attitudes in a variety of situations and contexts are important for students to engage in to become empowered lifelong learners.

### **Course Schedule:**

Students will attend French classes two to three afternoons a week during the program. Classes are attended by SIT students only. Students will regularly be assigned homework to complement and practice what has been studied in class.
